COMPANY PROFILE AND BENEFITS

Owens Consulting Group was founded in 2004 in Torrance, CA. As a Certified Public Accountant with over 8 years experience, Mathew Owens expertise lies in Assurance (audit, review and compiled financial statement engagements), corporate and individual taxation, internal controls, real estate investment analysis, loan analysis and business advisory services. His experience has enabled him to help small and medium-sized businesses maintain accounting records while providing sound business and accounting advice. He works toward helping companies become more efficient, productive, and reduce costs. He also runs his own real estate investment company specializing in positive cash flow investments and has completed over 100 real estate transactions giving him skill-sets in various aspects of real estate investments.

Why Use A Certified Public Accountant?

- Save Your Time

Have more time to focus on running your own business while still being fully knowledgeable of your finances and having proper tax planning.

- Save Your Money

Running your business efficiently with a great accounting function and with proper internal controls can save you time and money.

- Taking your business to the next level

Using a CPA to put your financial situation into a professional format that lenders, investors and affiliates can understand is critical to obtain needed financing for the expansion of your business.

Mathew Owens, CPA

SCHEDULE AN APPOINTMENT TODAY!

Your accounting and tax services will be customized to suit your business and can be easily integrated with your current system.

All accounting and tax work is done off-site with scheduled on-site visits and ongoing communication via phone, fax and/or email.

Staff training and/or setup can be done at your place of business or other location of your choice.
